SAILING OF THE JUNIATA-TORNADO AT CAPE SAILING OF THE JUNIATA—TORNADO AT CAPE HENLOPEN.—The United States mail steamer Juniata, Captain P. D. Hoxie, sailed yesterday at twenty-five minutes past 12 o'clock for New Orleans, via Havana, making the first departure for the latter city from Philadelphia. Hitherto our communication with the Queen of the Antilles was confined to the two small steamers the Stars and Stripes and the Hendrick Hudson, each of Jabout 500 tons burden, and sailing yeasels, but now we possess three of the

vessels, but now we possess three of the finest ocean steamers affort, the Juniata, the Star of the Union, and the new Tioga, nearly ready for sea, at Chester, all of over 1280 tons register.
The Juniata only arrived on Thursday, and the rapidity with which she discharged her cargo, loaded, and proceeded to sea, is worthy of note. The freight list embraced almost every conceivable object of utility, numbering over 7500 packages, provisions, liquors, and porter

and ale, covering more than half the cargo. She sarried out only seven passengers. The Star of the Union, Captain Cooksey, is now due, and will probably come in to-day. She sailed on Saturday last. The Pioneer, Captain Barrett, from Wilming-

ton, N. C., due Saturday, had not arrived this 8 A. M.; probably detained by the storm.

Cape Henlopen, on Saturday night, was visited by a gale that amounted, as we learn, to tornado, unprecedented in violence. It did a large amount of damage.

ATTEMPT TO STEAL A TRUNK .- About half-past 8 o'clock last Saturday evening, a man named John Maloney was arrested for attempting to steal a trunk from Walnut street wharf. It is steal a trank from Walnut street what. At a said that John has been in the habit of frequenting Walnut street wharf for the purpose of picking up trifies. He is also supposed to have been concerned in the robbery of a lady's travelling case from an express wagon, mentioned in a former issue, John had a hearing before Alderman Bettler who held him to reefore Alderman Beitler, who held him tor further examination at the Central Station this

At the hearing, Mr. John Hood, whose office is at No. 3 Walnut street, testified that they have had three pieces of baggage stolen from their

office.

The driver testified that upon the 8 o'clock train coming in from New York, last Saturday night, he saw Maloney trying to get a trunk out of the wagon. He asked him what he wanted, and was answered that he was getting his baggage. He had no check, and when asked for it, replied in a very impudent manner. He had been living in Frince street, New York, although he said he had come here from New Orleans, by way of New York. He was held in \$500 ball to answer at Court.

SUSPECTED OF BURGLARY .- Private informa-Mon, which was lodged at the Fifth District Police Station with Lieutenant Connelly, led to the arrest of Edward Graham, Edward Walten, Jennie Mansfield, and Emma English, last Saturday morning, on a charge of suspicion of burglary. The party, who have been living together in a bouse in Duponceau street, are said to be professional thieves, and when arrested a quantity of burglars' tools, skeleton keys, pawnbrokers' tickets, etc., were found in their rooms. They had a preliminary examina-tion before Alderman Swift, who held them for a further hearing.

BEATING AN INTRUDER. - Yesterday afternoon a German, named Joseph Oppe, was arrested at No. 1822 Callowbill street, on a charge of assault and battery. Oppe had a young man boarding with him, who left his house some time ago. He came back on several occasions, and slept about the house, although ordered away on several occasions. Yesterday afternoon he went into the house, and refused to go out when ordered by the proprietor. The latter then took a billy and beat him. Oppe was arrested on the charge of assault and battery, and after a hearing before Alderman Massey, was neld in \$800 ball to answer. ball to answer.

NEW AND VALUABLE IMPROVEMENT.—We have lately been called on to examine a new and valuable improvement in the construction of window-sashes, and have no hesitancy in pronouncing it one of the greatest inventions of modern times. By this, the old iap window-sash can be altered and so arranged as to make an unsightly object sightly and every way secure. We predict for this improvement a success, and it is well worthy the attention of builders or capitalists.

A working model can be seen at No. 524 Walnut street, Room 25.

AID FOR THE DESTITUTE SOUTH,-The following exhibits the state of the fund subscribed for the benefit of the destitute in the South,— Amount received up to 3 o'clock on Saturday afternoon, \$5700. Amount received to-day up to 10 o'clock, \$200; making a total of \$5005.

In New York the different churches took up a collection in aid of the fund in that city, and quite a large amount was given. It would be well if the churches in this city would take the matter in hand, and show that we are not behind our neighbors in sympathy and charity.

AN UNPROVOKED ASSAULT, -About a quarter to eight o'clock last evening, as a German was quietly walking along Columbia avenue, near America street, he was suddenly attacked by a drunken fellow named James McAleer. The latter wrested a cane from him, and beat him latter wrested a cane from him, and seasoulted with it very severely. The cries of the assaulted party brought a policeman to his assistance, and McAleer was arrested and escorted to Alder-man Cloud's office. After a hearing he was committed to answer.

FREEDMEN'S COMMUSSION-STATED MEETING OF THE PENNSYLVANIA BRANCH AT ST. LUKE'S CHURCH.—The stated meeting of the Pennsylvania Branch of the Freedmen's Commission of the Protestant Episcopal Church was held to-day, commencing at 12 o'clock, in the lecture-room of St. Luke's Church, Thirteeuth street, below Spruce. There was a fair attendance of those interested in this benevolent and humane institution, the ladies, who are always forement in works of mercy and deeds of kindness, being in the majority. of kindness, being in the majority.

The proceedings were opened with prayer by

the Rev. Dr. Morris. On motion, Rev. Benjamin Watson was made presiding officer, and Rev. Mr. Moore Secretary. The minutes of the last stated meeting were end and adopted. The report of the Corresponding Secretary

was read and approved.

A statement of clothing, money, papers, books, etc., received during the last meeting, was read, showing an increase in donations over that of the preceding month.

The report of the Finance Committee for the last quarter exhibited receipts from various sources of \$735. There is now on hand a balance of \$335.

During the past month six applicants have been examined for the position of teachers to the freedmen, and were sent to those sections where the calls are most urgent.

The report of the President of the Pennsylvania branch of the Freedmen's Commission, of the Protestant Episcopal Church, was then read as follows.

read as follows: -

the Protestant Episcopal Churcu, was men read as fullows:

At the expiration of another month, I lay before you a brief summary of the Pennsylvania Branch.

The various officers of the association and their aids have scalously performed the duties assigned them, and all have worked together harmoniously, with the single aim of elevating the freedmen of the South, both temporally and spiritually.

The Pennsylvania Branch has, during this month, sent four teachers to open schools in two new places. One of these teachers is supported by St. Andrew's Church, Pittsburg, one by St. Paul's, Philadelphia, and two by St. Mark's.

Communications have been received asking for teachers at four other new points of Virginia, where school houses will be furnished by the diergymen of the district, or by the Freedmen's Bureau.

Six places in Delaware are named where as many teachers are asked for, who would be partially supported by the freedmen taught. Bishop fee has offered to do all in his power to further the design of this Commission if we will enter upon the work. The wants of this district, lying directly upon our own borders, appear to have been overlooked by the philanthropist until quite recently, because the greater colored population of the Southern Slave States presented a more urgent claim upon Northern sympathis.

seried a more urgent claim upon Northern sympathle in the fact that only a few hours' journey from this city hundreds of colored people are living in great ignorance, without the least means of education within reach, seems to point us to this home duty. Since the prejudices of a large part of the white people in the lower counties of Delaware prevent their giving either pecaniary aid or moral influence towards the education of their former slaves, it is hoped that the natives of that State living in Philadelphia will evince an interest in the cause, so as to enable this branch of the Episcopal Commission to do something towards illuminating the darkness so near us.

The expense of establishing new schools is greater, and the work more complicated than in sending additional teachers to achools already opened. We were requested by the Superintendent of the Church Schools in Norfolk, Virginia, to establish a school ten silles from that city, at a piace called Taylor's Farm, where 40 recedimen were collected.

Two teachers were sent down to Nortoik to occupy this post, and the negroes were preparing a building to serve as a church and school-house, delighted by the promise that educated persons of their own races would come and instruct them. Not only do obstacles of this nature beset our labor

Not only do obstacles of this nature beset our labors among the freedmen, but the letters of the teachers show the bliter prejudice they have to contend with. Going from circles of influence and homes of refinement, they find themselves socially tubooed because they are teaching the negro. At Vicksburg our white teacher is told by the clergyman that none of the ladies of Christ Church will speak to her. At Norfolk our colored teachers, new to the manners of "our Southern brethren," are distressed that their errand of mercy to their own race) is as unfeelingly hindered by the whites.

At Richmond, a colored teacher sent by this Branch At Richmond, a colored teacher sent by this Branch, travelling under a Government pass, was not allowed to remain in the waiting-room of the Station for the next train, but was obliged to seek a shelter from the wintry wied among strangers, in a strange city. A white lady, a teacher, for whom we obtained Government passes, had them refused at four places in Tennessee, and was obliged to pay nearly thirty doltars fare, on the plea that the roads were not military ones, but were owned by Companies; this must have been a mere pretext, as the Government pays the road for every pass issued.

All the above facts coming under our cognizance during one month, indicate the bitterness of the Southern people not only against the colored race and their Northern friends, but even towards the naternal Government to whose clemency they are at this moment indebted for their railroads and their

Letters were read from different persons repre

senting various sections in the South, and all, although expressing pleasure at the progress of this Commission at their various places, yet urging upon the people increased zeal in this merciful work, and for donations of any kind which can in any manner aid or benefit the poor and destitute of the freedmen, and be of

Applications for fences, one between Nos. 1841
and 1843 North Tenth street, and another between lands of Charles Flew and Joseph McNeily

on southeast side of Ashmead street, Twentysecond Ward, were referred. Mr. Roberts called up the resolution presented at the last meeting, recommending to City Councils the repealing of the ordinance charging annual rental for the use of the sewers of the city. An amendment, to wit, "That the Board of Surveyors recommend a modification of the ordinance regulating sewer rentals, so that no charge may be made for drainage that would otherwise be permitted to

flow on the footways"—was offered and lost The original resolution was not agreed to. Mr. Davis offered the following resolution: Resolved, That the Chief Engineer and veyor be requested to prepare a bill fo action of the Legislature, approving such plans of survey as have been revised and altered by the Board of Surveyors under the authority of Councils, as are not within the power of the court to confirm. A TIN BOX FILLED WITH GOVERNMENT BONDS A TIN BOX FILLED WITH GOVERNMENT BONDS STOLEN,—A most daring robbery was perpetrated this morning at the office of James H. Newbold, bill broker, No. 126 South Second street. It seems that a boy had returned from the Commercial Bank with a tin box, containing valuable papers, and Government bonds to the amount of \$6000, which box the boy, when entering the office, placed upon a countor. A man soon entered the office, and laughingly called the attention of the boy to a peanut stand across the way, over which an old lady had tumbled. This he did, and while so engaged, some person came into the office and gaged, some person came into the office and made off with box, bonds and all. The man who called the attention of the boy is said to

have disappeared too.

An OLD OFFENSE. - George Morris was taken AN OLD OFFERSE.—George Morris was taken into custody about 8 o'clock last evening, at the Eighth District Police Station, on an old charge of assault and battery. It is asserted that he, in combination with two others, made an assault upon Officer Moore, about a month ago, at Thirteenth and Wood streets. On that occasion Moore was roughly handled, and besides being severely beaten, had his revolver stolen. Since that time a warrant has been out for his arrest, but he successed in electing the police. arrest, but he succeeded in cluding the police until last evening, when he walked into the lion's den and was taken. He had a hearing before Alderman Massey, who held him in \$1500 ball to answer the charge of assault and battery upon an officer.

A FREE FIGHT IN A BAH ROOM, -Between the and the state of t or four others who happened to be in the bar-room at the time. Mr. Hackett was beaten severely; but one of the others was injured so badly that he was unable to appear before Alderman Clouds at the hearing. Three of the party—William Love, James Peck, and Charles Jress—were arrested to Adams street, near the place of the occurrence, and were held for a further hearing by the Alderman.

PRIZE-FIGHT TO COME OFF.-We learn that another exhibition of the P.R. is to come off to-morrow at some point near Reading. As near as we can learn, the parties are Tom Kelly, an Englishman, and a resident of this city, and Tom Parkinson, of Schuylkill county. The fight is arranged, as above stated, to come off between the hours of Sand 10 A.M. They off between the hours of 6 and 10 A. M. They will fight for \$500 a side, and the fighting weight is to be 112 pounds. Both men have been in training for some time past, and are fully prepered for their brutal exhibition.

TILL-TAPPER.-Last Saturday morning James McConnell paid a visit to a store at Nineteenth and Naudain streets, and, seeing a good oppor-tunity to make free with the money-drawer, le did so, and took therefrom a small amount of cash. As soon as the money was missed a policeman was notified of the facts of the case, and McConnell was arrested soon afterwards at Fifteenth and Bedford streets. He had a hearing before Alderman Patchell, and was held in \$400 bail to answer the charge of larceny.

ARRIVAL OF THE STARS AND STRIPES .- This ARRIVAL OF THE STARS AND STRIPES.—This steamer, Captain Holmes, from Havana, reported as having put into Fortress Monroe to renew her supply of coal, arrived this morning, bringing a full freight, besides passengers. The real cause, however, of her visit to the Fortress was the breaking a crank pin, temporarily disabling her. She is now discharging her cargo. She salled from Havana five hours after the Juniata.

MEETING OF THE COMMITTEE ON THE SOUTHERN RELIEF FUND.—The Committee on the Southern Relief Fund, representing the different branches of trade in the city, metat the Board of Trade Rooms at 12 o'clock. No business of any importance was transacted, the proceedings being, up to 1 o'clock, confined to the accepting of several resignations and the filling up of the vegencies of other members. the vacancies of other members.

SRIFF FOUND ADRIFT .- Last Saturday even ing, during the severe snow-storm, an officer of the Second District Police picked up a skiff that was adrift at South street wharf. It is sixteen feet long, painted blue outside, and lead-color within. The owner can obtain possession by applying to Lieutenant Hampton, at the old Southwark Hall Police Station.

MEDICAL ELECTRICITY.

Latest and Most Important Discoveries in the Treatment of Chronic

DR. S. W. BECKWITH'S ELECTRICAL INSTITUTE,

No. 1220 WALNUT ST.

During our investigations in the treatment of disease in its various forms by the agency of electricity. we have obtained very many valuable and startling acts, which, added to the previous though limited information, possessed by other and less fortunate operators, place us beyond all previous knowledge of this mysterious agent. During the course of our practice we have treated and cured, through the knowledge thus gained, many thousands, and by means of our new discoveries have established our serves as the most succession Medical Electricians in

this country or Europe.

Electrical investigation has proved that the human body acts on the principle of the galvanic battery. The brain, mucous and serous membranes, the sain, tissues, and fluids constitute the negative and positive forces, and every action, whether mental or physical, is the result of these antagonistic forces Digestion, respiration, circulation, secretion, and excretion are due soiely to electrical influence. There is a polar action established throughout the pervous system which connects with every part of the body, establishing and preserving a proper balance of the electrical element which constitutes health, and a disturbance of which causes disease. There are strictly but two conditions of diseaseone of inflammation, or positive; the other weak debilitated, negative—and as electricity contains these two conditions in the action of the positive and negative currents, all we have to do is to neutralize the disease and restore proper, healthy
